

XFINITY® Home

gives you a total home security and control solution that simplifies your life.

XFINITY® Home brings you the security and peace of mind your family wants. But now there are even more ways for you to stay connected to your home.

Choose from a variety of features that give you more control while making your life a little bit easier.

Watch live streaming video of your pets when you're not home.

Remote lighting and thermostat control saves you up to 10% a year on your energy bill.

Receive text or email alerts when your kids get home.

Alarm and Alert Sensors

All of the following sensors can be customized to trigger an alarm, lighting, video or text and email alert.

Motion Sensor

Provides an added layer of motion protection by monitoring family rooms, hallways, stairs, etc.

Targeted Motion Sensor

A focused motion sensor that targets a specific area like an entryway or window.

Door/Window Sensor

Alerts you when doors or windows are opened.

Glass Break Sensor

Can detect the unique sound frequency of breaking window or door glass.

Hazard Detectors

Smoke Detector

Monitored 24 hours a day, it also performs a self-test to ensure it's working.

Carbon Monoxide Detector

Rest easy knowing we're constantly monitoring your home for potentially dangerous CO levels.

Water Detector

Alerts you to flooding or leaking in the basement, laundry room or other places where installed in your home.

Video Monitors

Indoor Camera

View live video of your home from an Internet-connected smartphone, tablet or computer.

Indoor/Outdoor Camera

Weather-resistant camera expands your field of view and even lets you see in the dark with night vision.

Enhanced Controls

Thermostat

Control remotely from an Internet-connected computer, tablet or smartphone.

Light Switch*

Allows you to remotely control your lights and create an energy-efficient lighting schedule.

Lighting/Appliance Controller

Adjust the lights, create an energy-efficient lighting schedule and even turn off your curling iron or coffee pot from an Internet-connected computer, tablet or smartphone.

Wireless Keypad

Can be mounted anywhere in the home to conveniently arm and disarm your system.

This is easy.
This is simple.
This is awesome.

XFINITY HOME - SECURITY AND CONTROL

XFINITY Home gives you a total home security and control solution that simplifies your life. Look after your home, family, and valuables from anywhere.

DO YOU KNOW THE MAIN DIFFERENCE?

With **XFINITY Home - Secure**, customers get professional monitoring and can arm their homes to help prevent burglary, fire and other threats, as well as operate thermostats and lighting.

With **XFINITY Home - Control**, customers can self-monitor their homes with video monitoring, as well as operate thermostats and lighting.
